Compsee Partners with Brother Mobile Solutions
Expands offering of on-demand printing solutions for the mobile workforce

GIG HARBOR, WA — August 31, 2010

Compsee, a division of Control Solutions, Inc., a total solutions provider that designs, integrates and supports end-to-end mobility solutions, announced its partnership with Brother Mobile Solutions, the innovative provider of on-the-go printing technology.

The addition of the Brother Mobile Solution product line enables Compsee to further accelerate their existing mobile applications with professional-quality, ultra-portable printers designed to improve mobile worker productivity, cut operational costs and increase customer satisfaction.

“Having a partnership with Brother allows Compsee to offer our customers true on-demand printing solutions provided by a leading international company.” said Billy Graham, President, Compsee. “The Brother partnership is an excellent fit with our go-to-market strategy that allows our sales teams to broaden their offerings and support to their prospects and customers.”

“We have chosen to partner with Compsee because of their extensive knowledge and experience in deploying and supporting mobile devices,” said Michael Krumm, Marketing Manager at Brother. “We value Compsee’s experience with end-to-end mobile workforce solutions, along with their ability to deliver to customers nationwide.”

About Compsee

About Brother Mobile Solutions

Brother Mobile Solutions, headquartered in Broomfield, CO., is an industry-leading provider of mobile printing and industrial labeling solutions, and a fast-growing member of the global Brother Group of companies. Brother Mobile Solutions' core competencies are in engineering, specialty manufacturing and customization, sales, marketing and technical support of mobile printing and industrial labeling solutions. Brother offers a full range of high-quality mobile printers and labelers to bolster productivity and efficiencies in the field or anywhere mobile printing solutions are needed. Among its offerings are the

PocketJet® full-page mobile printer, MPrint™ small-format mobile printer, TD-4000 and TD-4100 along with PT-9700PC and PT-9800PCN desktop barcode and label printers. It has a long corporate history of success in delivering practical, yet innovative, answers to workforces everywhere. Brother Mobile Solutions also draws on the resources of the worldwide Brother Group of companies, headquartered in Nagoya, Japan, with U.S. headquarters in Bridgewater, NJ. From its humble beginnings in Japan over 100 years ago, the global Brother enterprise now encompasses more than 27,000 employees, sales offices in 39 countries, 19 manufacturing sites, and its own R&D operations. In the U.S., Brother is best known for its business machines -- printers, all-in-ones, fax machines and electronic labeling systems -- where it is the market leader in several of those product categories.
